User Experience

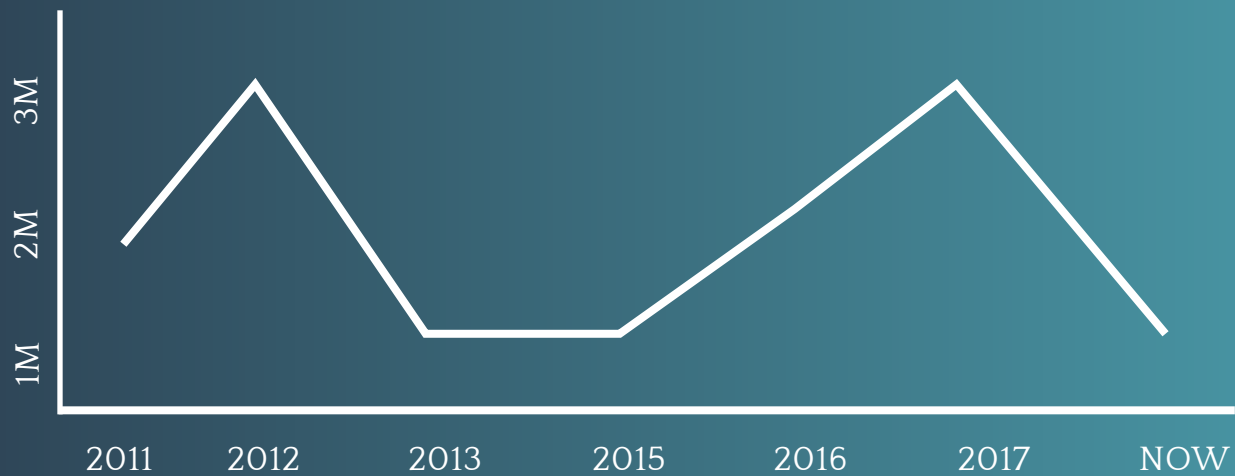

User Interface

My taste in design languages is like my interest towards music genres, I like almost every kind of music but my favorites are Pop, Classical and R&B, however, my goto song for when I am designing is classical hits. I have this inner feeling towards user interfaces which have as less ui elements as possible but deliver as much useful content as they could therefore minimalism is how I tend to design and think.

Work Experience

- ✓ Fanavari Hooshmand Sepehr: UI/UX Designer 2017 - 4 Months
- ✓ PC Development of Iran: Android Developer 2016 - 2 Months
- ✓ Freelancing Android Mobile Application 2015 - 2 Months
